Thanks for the correction Bill. I just spoke with OCSPP and they will rely on ORD to complete this submission, which is the normal protocol.

Just to clarify, the tox assessments typically don't get loaded into ROCIS. They go to OMB for interagency review, but that is a direct line from the program to OMB and is handled outside of 12866 review. If the question is how to get the assessment to OMB tonight, that would not normally involve OP.

Yes, please have OCSPP send me the document.

Hi – do we have someone on hand to upload the PFBS tox assessment into ROCIS? I’m sorry for the delay, but it needs to go tonight.
